SUMMARY

Enthusiastic and motivated Computer application student. Proficient in front-end technologies such as HTML, CSS, and JavaScript, with hands-on experience in building dynamic applications using React. Skilled in backend development with Java, along with experience in database management.

PROJECTS

AJIO Shopping Website

HTML, CSS, Bootstrap, Java, JSP, Servlets, MySQL

📅 08/2024 - Present   📍 Pune
🔗 https://github.com/Akashchavhan/Ajio-Shopping-Website

Developed a dynamic e-commerce platform featuring image animations, a sign-in/sign-up system, and a men's section with product listings and "Add to Cart" functionality

- Implemented smooth image slider animations to enhance user engagement by 10%.
- Developed secure sign-in and sign-up functionalities for user account management by 20%.
- Created a dedicated section for men's products with detailed descriptions and images.
- Enabled users to add products to their cart, providing a streamlined checkout experience.

W3Schools Clone

React, JavaScript, CSS   📅 03/2024 - 05/2024   📍 Pune
🔗 https://akashchavhan.github.io/W3Schools-Clone/

Developed a clone of the W3Schools website using React, implementing reusable components to enhance modularity and maintainability

- Created reusable components for navigation, content display, and interactive elements.
- Implemented dynamic routing and state management for seamless user navigation.
- Improved load time by 30% with optimized React component rendering.
- Utilizes on Click events to change text or display additional information without any loading time.
